**EXAMINER'S AMENDMENT**

Claims 1-5 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claims 13-15, directed to the process of making or using the allowable product, previously withdrawn from consideration as a result of a restriction requirement, claims 13-15 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. Claims 6-12 and 16-20, directed to the invention(s) of nucleic acids, vectors, host cells, methods of use of nucleic acids and antibodies (Groups II and IV in the restriction requirement of 5-22-06) do not require all the limitations of an allowable product claim, and have not NOT been rejoined.

Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, the restriction requirement I groups III as set forth in the Office action mailed on 5-22-06 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
